ATTN: Mr. Paul Tandler

Dear Mr. Tandler:

This letter will acknowledge receipt of materials requested in November 20, 1981 correspondence with your facility pertaining to deficiencies under the Resource Conservation and Recovery Act (RCRA) as amended.

Per your correspondence with this office, inspection schedules and logs have now been implemented. Personnel training records now include job titles and a description of training. A list of emergency equipment including the location of such equipment, has been placed in your contingency plan along with names, addresses, and phone numbers of those employees that are authorized to act as emergency coordinators. This additional information has enabled us to make the determination that your facility is in compliance with RCRA.

Your cooperation and efforts in this matter are appreciated. Should you have any questions concerning this matter, please contact Diane M. Spencer of my staff at the above number.

Sincerely,

Kenneth G. Mensing, Southern Region Manager
Land Field Operations Section
Division of Land/Noise Pollution Control
